Deposits

You, the Client, have to perform all the deposits from a source (e.g. single bank account). Our Payment Service Providers (PSPs) enable us to offer you a couple of ways in which you can deposit: (1) bank wiring (2) credit/debit card, including local card schemes such as UnionPay; and (3) E-Wallet such as Skrill or Neteller.

- (1) **Bank Wiring/Transfer:** If you want to start trading and deposit funds, you should make sure that bank account from which you will be transferring funds is in your country of residence and it is in your name, as third party payments into your trading account are not possible. We are not asking for SWIFT confirmation all the time as in the case of wiring we can usually verify this internally.

Not withholding the above, we reserve the right to ask SWIFT certification from you when we deem necessary. We will ask you to certify that a SWIFT confirmation is authentic and send us a proof or confirmation of the origin of the money which will be used for trading.

- (2) **Credit/Debit Cards:** The credit/debit card has to be in your name; otherwise, it will be treated as third party deposit and the amount you try to send will be refunded back to the sender’s credit card. Please

note that in case of a refund, it may take couple of weeks to be refunded to the credit card as credit card companies may take that long to refund.

- (3) **E-Wallet:** E-Wallet payments will not be automatically credited to any trading accounts in which the Berry registered name or email address does not correspond with the E-Wallet registered name or email address. We may ask proof of payment and/or bank wiring proof to your E-Wallet.

BERRY will not accept payments made by third parties (including family members) in accordance with anti-money laundering regulations.

Account to which you do not login and traded within twelve (12) calendar months are considered "Dormant Accounts". We do not charge any "Dormant Fees". However, we reserve the right to close your account due to inactivity or charge "Dormant Accounts Fees" by notifying you in advance using contact details provided on registration or as updated thereafter. **We also impose a maximum of 5 trading accounts per client.**

If you don't comply with this DW Policy, you may be prevented from depositing money in your trading account with Berry.

Withdrawals

According to generally acceptable AML rules and regulations Pay-outs are made exclusively to the same source (e.g. bank account or credit card) from which the deposit was made. If several sources were used for the deposit, please inform us of your preferred repayment source. BERRY may, at its sole discretion, choose the source considered to be the most appropriate. Without derogating of the foregoing, If repayment to the same source is not possible for any reason (e.g. closing or changing a bank account), please inform us of your (re)payment preferences by e-mail or telephone. BERRY can request additional documents as verification of the new source.

In most cases (bank wiring, e-wallet) you will be asked to provide a bank statement containing your name and bank account details in order to withdraw money for the first time (this applies to every new bank account you wish to use for withdrawals). In addition, when you deposit or withdraw money for trading purposes using alternative payment methods (such as E-Wallets), you should be aware that additional restrictions may apply (for example email verification).

Unless we agree otherwise, withdrawals from the Account may only be made in the same currency in which the respective deposit was made.

Withdrawals Fees

The fees schedule for deposits and withdrawals is available on Berry website under payment methods page. Berry does not charge withdrawals or deposit processing and handling fees, however we reserve the right to amend this policy from time to time, should this happen you will be notified about the same in advance.

Non-Deposited Funds

Funds appearing on Clients' account may include voluntary credit or goodwill rebates, or any other sums not directly deposited by the Client or gained from trading on account of actually deposited funds ("Non-Deposited Funds"). Please note unless otherwise explicitly agreed, Non-Deposited Funds may not be available for withdrawal. Further, due to technical limitations, Non-Deposited Funds may be assigned to Client's account in certain occasions (for example, for the technical purpose of allowing the closing of positions or an indebted account).

Without derogating from the abovementioned, after receiving Non-Deposited Funds (Credit) you may be able to withdraw deposited funds and profits only after you fulfil a trading volume as agreed on a case-by case basis. We will inform you of the volume requirement by email.
